APRIL 2024 Cúram Education Update
HAPPY SPRING!

◈ **Two New V8 Developer Tests Released**
◈ **Self-pay option available now for online courses**

Just released! VERSION 8 DEVELOPER TESTS

TEST C004: Cúram V8.X Developer Test (Application Development Environment - ADE)

This accreditation test confirms that users have the skills necessary to design, build, execute, and deploy Cúram V8.X applications by using the Cúram Application Development Environment (ADE). The test contains three sections that together provide a total of 50 questions.
Successful completion of this test will earn Developer Accreditation.
To prepare for this test, candidates should study CUR090: Merative Cúram for Developers (ADE) 8.X, which covers all content and provides valuable, hands-on exercises.
LINK to full details.

TEST C005: Cúram V8.X Developer Certification Test (Customization)

This test confirms that the successful candidate has the knowledge, skills, and abilities necessary to customize Cúram V8.X applications by using the Cúram Application Development Environment (ADE). The test contains three sections that together provide a total of 40 questions.
To prepare for this test, candidates should study CUR091: Merative Cúram for Developers (Customization) 8.X, which covers all content and provides valuable, hands-on exercises.
Completion of the ADE course (C004) is required before completion of Customization (C005) for full Developer Certification.
LINK to full details.

Note: The Cúram V7.X Developer Certification was based on a single test that covered ADE and Customization. The Cúram V8.X Developer Certification has been split into the following two tests:

- C004 – Cúram V8.X ADE – Accreditation
- C005 – Cúram V8.X Customization – Certification

The primary reason for the split is to align the testing and training structures; the ADE course maps to the ADE test and the Customization course maps to the Customization test. In addition, the split makes test preparation more manageable. The V7.X Developer Certification test will be sunset by August 31 to allow completion of those who may have started the course.

Recently Released:

TEST C003: Cúram V8.X Business Analysis Certification Test

This entry-level Certification Test is intended for business analysts, consultants, services professionals, testers, and other personnel who need to acquire the foundational Cúram knowledge required to work on Cúram implementation projects. To prepare for this certification test, candidates should study *CUR088: Fundamentals of the Merative Cúram Platform for Business Analysts 8.X*, which covers all content and provides hands-on exercises.

Full test details can be found here: https://merative.net/curam_cert_test_info
→ You can send a Certification test request here: https://merative.net/CuramCertificationRequest

CUR090 – Merative Cúram for Developers (ADE) 8.X: This self-paced course provides a solid grounding in the Cúram model-driven development approach and ADE. It presents an architectural overview of the Cúram application and introduces ADE features and tools for modeling, coding, building, and troubleshooting applications. During the course, learners will design and implement a simple end-to-end application by using many ADE client and server features.

CUR091 – Merative Cúram for Developers (Customization) 8.X: This course introduces learners to the techniques that are used to customize Cúram out-of-the-box (OOTB) solutions for Cúram implementation projects. The course: describes the approach for customizing OOTB applications compliantly and how to customize client and server artifacts; outlines how REST and web services are used to integrate with external applications and how custom features can be implemented using events, deferred processes, and batch processes; and outlines the approaches for localizing, supporting, and upgrading Cúram. Learners also perform impact analysis on OOTB applications and implement compliant customizations.

Self-Service Ad Hoc Course Access

The Education Team has also recently enabled **self-pay** service for Cúram course subscriptions. Business or technical professionals who would like to get access to training but are not currently part of an organization with a contract can access the same material the experts at the big companies use.

If you are part of a small organization, we would love the chance to work with you on a plan to update your team's certifications, build Cúram skills or even deliver in-person or remote learning for you.

→ Submit your request here: https://merative.net/CuramCourseRequest and select the **pay myself** option.

Look for more great stuff coming in 2024!

*** Cúram Education Business and Technical Courses ***
The following Merative Cúram courses are available as of APRIL 1, 2024.

Former IBM ID	Merative ID	Course Name	Length (approx)	External Cost (USD)
9D62G	CUR062	Merative SPM Batching Processing for Developers	2 hrs	Free
9D75G	CUR075	Introduction to IBM Cúram Social Program Management 7.X: Functional Overview	6 hrs	Free
9D76G	CUR076	Cúram Social Program Management (SPM) 7.X Technical Overview	16 hrs	$300/user
9D79G	CUR079	Merative SPM Design System for Designers	6 hrs	$200/user
9D80G	CUR080	Merative SPM Design System for Developers	16+ hrs	$300/user
9D81G	CUR081	Merative SPM Universal Access for Developers (Responsive Web App)	16 hrs	$300/user
9D82G	CUR082	Cúram SPM Intelligent Evidence Gathering (IEG) for Developers 7.X	24 hrs	$300/user
9D84G	CUR084	IBM Solution for Child Welfare – Overview	3 hrs	$100/user
9D85G	CUR085	IBM Solution for Child Welfare – Modules	3 hrs	$100/user
DL41002G	CUR086	Merative Cúram on Kubernetes for Developers	+16 hrs	$150/user
NEW	**CUR093**	Merative Cúram on Kubernetes for Business Analysts	~16 hrs	$150/user
NEW	**CUR092**	Merative Cúram Sandbox Environment 8.X for BAs (no course) – 50 hrs access		$250/user
NEW	**CUR097**	Merative Cúram Sandbox Environment 8.X for Developers (no course) – 50 hrs		$250/user
9D94G	CUR094	Cúram Express Rules for Developers (ADE) 7.X	24 hrs	$250/user
9D94G	CUR095	Cúram Express Rules for Developers (Application Integration) 7.X	24 hrs	$250/user
9D68G	CUR068	Merative Cúram – Developing REST APIs	8+ hrs	$200/user
NEW	**CUR087**	**Introduction to the Merative Cúram Platform 8.X: Functional Overview**	5 hrs	Free
Coming	**CUR087**	**Merative Cúram Platform 8.X: Technical Overview** (see CUR076 until released)		
NEW	**CUR088**	**Fundamentals of the Merative Cúram Platform for Business Analysts 8.X**	40 hrs	$400/user
NEW	**CUR090**	**Merative Cúram for Developers (ADE) 8.X** (part 1/2 required for cert)	40+ hrs	$400/user
NEW	**CUR091**	**Merative Cúram for Developers (Customization) 8.X** (part 2/2 for cert)	40+ hrs	$400/user

➔ **Submit your request: https://merative.net/CuramCourseRequest**

Access to the course(s) should be provided within two business days. **Full course list** with details, abstracts, and learning paths are available to the public at https://merative.net/curam_education_info.

Merative employees can request access internally for on Mint: Cúram Education SharePoint site.
