## Introduction

Welcome to the Cúram 8.0.2.0 iFix17 release.

This is a cumulative release that incorporates all improvements, resolved issues, and third-party updates in previous 8.0.2.0 iFix releases. For full details, see the release notes for each of the previous iFix releases online at [Release Notes](#).

For product documentation, see [Merative Support Docs](#).

## Installation

For full installation instructions, see the Development Environment Installation Guide at [Product Documentation and PDFs](#).

The basic installation steps are as follows:

- Review the release notes and documentation for any prerequisite steps.
- Download and extract the contents of the .zip file to a local drive location.
- Ensure that all files in your Cúram installation are writable.
- Run the Cúram installer, which you can find in the INSTALLER folder.
- Run the appropriate build targets for your installation.

## Upgrading

If you are upgrading from a previous version, the Cúram Upgrade Helper contains documentation and tools to help you to upgrade your Cúram application codebase and database. The Cúram Upgrade Guide describes the recommended process for application and database upgrades. The Upgrade Helper contains tools to assist you with implementing the upgrade, including tools to produce a schedule of required migrations for your upgrade, tools to provide information about database schema changes, and tools to generate initial SQL scripts for applying changes to your database. Download the appropriate version of the Cúram Upgrade Helper from [Merative Support](#). You must log in to download software, request access if needed. Select Cúram Support and Software Download, enter your credentials and download the software.

**DT036846, WorkItem:SPM-131643 - Cúram Session Timeout warning is not appearing at the expected time when a modal is open**

**Issue Description:**

The Cúram Session Timeout warning is not appearing at the expected time when a modal is open.

**User Interface Impact:** No

**Steps to Reproduce:**

1. Log in as a caseworker.
2. Open the Register Person modal.
3. Issue: The Cúram Session Timeout warning may appear before the default time of 28 minutes.

**Resolution:**

Additional functionality has been added to the Cúram Session Timeout feature to ensure the timing of this warning is correct, even when a modal is already displayed.
