Installation

For full installation instructions, see the Development Environment Installation Guide at [Product Documentation and PDFs.](#)

The basic installation steps are as follows:

- Review the release notes and documentation for any prerequisite steps.
- Download and extract the contents of the .zip file to a local drive location.
- Ensure that all files in your Social Program Management installation are writable.
- Run the Social Program Management installer, which you can find in the INSTALLER folder.
- Run the appropriate build targets for your installation.

Upgrading

If you are upgrading from a previous version, the Cúram Upgrade Helper contains documentation and tools to help you to upgrade your Cúram application codebase and database. The Cúram Upgrade Guide describes the recommended process for application and database upgrades. The Upgrade Helper contains tools to assist you with implementing the upgrade, including tools to produce a schedule of required migrations for your upgrade, tools to provide information about database schema changes, and tools to generate initial SQL scripts for applying changes to your database. Download instructions for the latest version of the Cúram Upgrade Helper are available from [Social Program Management support](#).

DT036625, WorkItem:SPM-127257 - Instructional text for the multiple search popup control only available to screenreader and mouse users

Issue Description:
When the user is performing a search that requires the search scope to be selected in a dropdown. The instructional text in the tool tip displayed for the search icon contains instructions only available to screenreader and mouse users.

User Interface Impact: No

Steps to Reproduce:

1. Log in as a Caseworker.
2. Navigate to the Inbox tab.

3. Open the Tab action menu and select the New Task to open the New Task modal.
4. Issue: The Search icon tool tip information to "ensure you have selected a value from the previous listbox" is available to mouse and screenreader users but not to a keyboard only user tabbing through the modal.

Resolution: Dropdowns without a blank option can no longer be cleared. The instructional text ", ensure you have selected a value from the previous listbox" has been removed as it is no longer required.
